

## Schedule for Change/End/Resume Therapy:

### To run these reports click on “Reports” and “C.O.T. Schedule”

To assist facilities in preparing the new COT (Change of Therapy) MDS assessments, as well as other related MDSs, we have created the "C.O.T. Schedule".

All the rules are based on PPS assessments created for Medicare residents, which have a therapy Rugs score. We call this the "Base MDS." The rules require facilities to consider day 7, 14, 21 and 28 following such an MDS, or day 6, 13, 20 and 27 following the new EOT-R MDSs (End of Therapy, with therapy Resumption.)

The four 7-day rolling windows may be interrupted because:

- Another PPS was created.
- A PPS is scheduled.
- Therapy was interrupted.
- Medicare coverage ends.

In such cases, the reports display these reason where they apply.

Base MDSs are shown with the following information:

- ARD (or therapy resumption) date,
- reason: A0310A, B, C, and F;
- Rugs score with HIPPS code,
- total therapy minutes entered,
- speech, OT and PT minutes (or adjusted minutes) and number of days for each,
- number of nursing restorative services.

Two reports are available:

**(1) MDS Assessment Schedule**, for facilities who use the RHS Therapy Tracking Module.

This report examines the residents scheduled or completed minutes, making the following determinations:

- COT. If the therapy on the 7-day date has changed, and the change is significant enough to alter the RUGS score category, then a COT must be created and submitted. All the minutes/days/total minutes are shown for that date. If the change is not significant enough, the report explains that.
- EOT. (End of Therapy). If there is a gap in therapy services of 3 days or more, the report shows for which day an EOT should be created.
- SOT (Start of Therapy) / EOT-R (End of Therapy, with therapy Resumption). If the gap is less than 5 days, the EOT may be combined with Therapy Resumption (EOT-R). Report shows which resumption date (new field: O0450B) to use. Otherwise, an SOT must be done, for the date shown on report.

Any MDS due that has already been created, is shown with a red check mark next to the date. As noted above, any time there is a reason why a COT should *not* be needed on the 7-day schedule, the report shows that date with the explanation.

A simpler option is available, called "Missing MDSs only." This shows only the MDS due, omitting also any MDS due that has been created already.

### **(2) Therapy Review Schedule.**

This report shows only possible COT dates. It shows the 7, 14, 21, 28 day cycle for each base MDS, as a time for the facility to review the resident's therapy and determine if there is a significant change in therapy that warrants a COT.

The report is in order of review date, so that the facility can know in advance which residents must be reviewed for each day. The report shows which week (1 through 4) following the ARD date, for each line. Any time a resident does not require any of these review dates, based on the reasons noted above, the report shows that reason.

### Schedule for Change/End/Resume Therapy

Two reports are available from this screen:

**(1) MDS Assessment Schedule**

- Using data from the RHS Therapy Module, it shows MDSs due based on changes in the resident's therapy minutes.
- These MDSs may be a COT (Change of Therapy), EOT (End of Therapy), SOT (Start of Therapy), or EOTR (End of Therapy with Resumption of Therapy).
- Unless you select "Missing MDSs only", it also provides an explanation for when these MDSs are not due.
- This report appears in resident order.

To select this report, check "MDS Assessment Schedule".

**(2) Therapy Review Schedule**

- Based on resident's PPS Assessment with therapy Rugs score, it projects which dates might incur a COT. Those are dates when the resident's therapy must be reviewed because a significant change in therapy would require a COT on that day.
- The "Note" column explains why a resident's MDS did not trigger a review date. If less than 4 dates are shown, the Note appears on the latest resident's date, explaining why it is the last one.
- This report appears in date order, grouping the residents for each day.

To select this report, leave "MDS Assessment Schedule" unchecked.

Current resident only

Dates:

04/01/2010 to 12/31/2011
