

Dear Client:

Re: ICD-10

Implementation and usage of ICD-10 is mandatory as of October 1, 2015.

At RHS we are doing everything to make sure that our clients have ICD-10 functionality prior to the deadline. In fact, we plan on making ICD-10 functionality available for all our clients by approximately August 1, 2015.

We will also, at that time, have a tool that suggests ICD-10 diagnosis codes for existing resident ICD-9 codes. These suggestions are not definitive as there is no one-to-one correspondence between ICD-9 and ICD-10. It will be the responsibility of the facility to be trained and knowledgeable about the ICD-10 structure and its proper coding.

If you have any further questions please feel free to call our client service department.

Thank you.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Harry Zelcer'.
