The new **Provider Panel** is an enhanced version of the old Provider Panel, with a considerably faster load time. The overall look is clearer and more streamlined.

The New **Provider Panel** can be accessed via the blue button in the top bar:

| ◄ | Residents | ► | | | Recent | 🔍 | Facility | Chart | Provider | Provider | Monitor | Facesheet | Records | Forms | Reports | Admin | Tasks | Communicator (4) | Shift | More ▼ | Logout |

The new **Provider Panel** has some modifications, and several additions.

Below is a screen shot followed by a comparison list of the old Provider Panel to the new **Provider Panel**:

1. Clicking the number in the blue box evokes a drill-down list, and clicking the "action" (tool) button, evokes the screen in which that action can be performed. The drill-down lists all have a PRINT button, and a resident search feature.
2. The first box, formerly known as **Active Residents** is now called **Census/ADTs**. This box has additional items: **Admissions and Incomplete Readmissions.**
3. **Orders Requiring Doctor's Signature or Nurse Verification** now has an additional item related to EPCS: **Orders Requiring Nurse Completion.** The number of **Monthlies Due** is in **red**.
4. **Pending Signature (Inactive) Orders** is in its own box.
5. Calendar has an additional item showing the number of **Weekly/Monthly Medication Orders**.
6. **Pending Review** has an additional item: **MRR Reviewals**.
7. The **Results** and **Medical Conditions** boxes are now separated more logically, under **Labs** and **Clinical**: The Labs box contains **Recent Lab Results**, **Recent Abnormal Lab Results** (new item), **Labs Awaiting Results**, **Radiology Awaiting Results**, and **Recent Radiology Results**. The **Clinical** box now contains **New Diagnoses**, **New Allergies**, **Vital and Monitoring**, and **PT/INR**.
8. **Incomplete** has an additional item: **MRR Reviewals Due**.
9. **Notifications/Alerts** now shows the number of **Medications on Hold**. A new feature has been added to this box called **Unmatched Lab Orders**. This is a tool which allows lab orders with improper resident information to easily be matched to the proper resident.
10. There is a new **Care Plans** box containing **Care Plan Evaluations**, **Goals Reviews**, and **Care Plan Meetings.**
11. The new **CNA** box contains **Open (# of residents)** to show how many residents have open CNA assignments, and another items showing **Residents without CNA Assignments**.
12. The information from the old **Open Consults** box has been redistributed in a more logical fashion amongst several different boxes.
13. The new **Request** box contains items for **Screen, Discharge, Evaluation, Visit, Examination, Consult, Follow-up**, and **Screen – OT/PT/ST**.
14. The new **Administration** box shows listings for both **Complete** and **Incomplete Medications**, **Treatments**, and **Medcart Status**. Drilling down on these numbers gives you the ability to switch between **each shift**, or to view **all shifts**.
15. There are two boxes relating to MDS: The **MDS** box shows **MDS Not Ready, MDS Ready to Submit, MDS Completion, CAA Completion, Care Plans Completion**, **Transmissions**, and **MDS CAAs Triggered**. The **MDS by Discipline** box shows a breakdown of MDS items by Department, then by section.
16. **Consults** shows **Overdue Consults** and **Outside Consults.**
17. **Medications to Sign** is a new box added for each physician to see what needs to be signed.
18. There is a new **Rehab** box which shows all Rehab orders, broken down by Department.
